Cllr Ireland advised of the meeting with the Traffic Consultant on 6th April. Rob Hollins had sent an email to Highways to arrange another meeting to discuss comments raised at the LNPSG Meeting. He had checked measurements and reported that a right turn onto Knightsbridge and Ward Avenue would not be viable. He checked the feasibility of a footpath on Church Lane, and advised it may not be feasible due to the blind bend.

At the last NP meeting, the group discussed having two more traffic surveys towards the end of May, which will cost £475 plus VAT. The PC agreed. The PC discussed the ATC's to be located on the periphery – going towards Papplewick, and near Ward Avenue/Knightsbridge. The data will be interpreted and a report will be sent to the Steering Group.

Cllr Ireland advised she had completed the expression of interest form to apply for the final tranche of funding, of approximately £6.5k. The PC agreed that any further funds required for the NP will be taken from the Parish Council NP budget.

Letters had been sent out to landowners regarding areas of designation for the open green spaces. D Ireland advised they had been unsuccessful in finding out the landowner of the areas near the Colliery Wheel and Black Pad, and would send an email to the Chief Executive at NCC.

The next NP meeting is Thursday 27th April.

Cllr Ireland commented that £40,000 of the S106 contribution for Strata Homes had been allocated to maintain the green spaces at the site over a 10 year period, and asked the Clerk to contact Melvyn Cryer to find out if the PC can take ownership of this.

Cllr Lewis advised that at a recent PLLEG meeting, they had discussed the possibility of having some play equipment in Linby. They had discussed the Pub field, however this would be private land, and wondered whether the Heritage Centre would be suitable. Cllr Ireland advised not ruling out the pub field, since the LNPSG had applied for the field to be adopted as open green space and this could therefore be a community area with play equipment.

Health & Safety Policy

Cllr Clark to produce policy for next meeting.

Parking on verge outside of Hanson House & Footpaths

Cllr Ireland asked if the PC would look at installing wooden posts on the verge to prevent parking to protect the grass. Cllr Lewis felt this would encourage drivers to park further on the road and restrict the traffic flow during peak times. Cllr Clark commented it would calm traffic through the village, requiring drivers to slow down at the school. The PC discussed installing the snow drop chains, however, the PC felt these may cause an issue with drivers not seeing them, or children tripping over the chains, or being forced to get out of the car on the road. Cllr Ireland advised the PC have some oak posts and would not need to purchase new ones. Cllr Lewis suggested they would need to be cut to approx. 2 ft and would need to be concreted in. The PC also discussed putting large stones on the grass verge. The PC agreed to look into this further during the Village Clean Up.

The PC discussed the ongoing issue with parking on the stone footpaths. Cllr Ireland advised she has a large piece of stone that could be engraved. Cllr Lewis agreed to contact the engraver for a quote.

Cllr Ireland advised the cobbles at the middle entrance near the Top Cross were starting to lift up and require attention. The PC agreed to look into this further during the Village Clean Up.
